

# *How Many Diapers?*

## **Facts to help you:**

- The bottom layer has a 14-inch diameter.
- Each of the four layers is solid diaper; there is no hole or support rod in the center.
- Each layer is made up of only one size of diaper.
- The three sizes of diaper used: "Newborn" (up to 10 lbs.); "Size 1" (up to 14 lbs.); "Size 2" (12 to 18 lbs.)
- Each layer is built in a layered spiral like this:

Leave your best guess in the jar.

*Good Luck!*
